

## How to use combination therapies in prostate cancer

Friday, 25 November  
08:30 - 10:45

**Location:** Auditorium

**Chairs:** S. Osanto, Leiden (NL)  
P. Hoskin, Northwood (GB)  
M. Wirth, Dresden (DE)

08:30 - 09:45

**Locally advanced and high risk prostate cancer**

08:30 - 08:45

**How to optimize the use of adjuvant radiation therapy after radical prostatectomy: Integrating clinical and genomic features**

R.J. Karnes, Rochester (US)

08:45 - 09:00

**What is the role of adjuvant systemic approaches after curative treatment?**

K. Fizazi, Villejuif (FR)

09:00 - 09:45

**What is the best multi-modal approach for node positive disease?**

K. Touijer, New York (US)

09:15 - 09:30

**Salvage radiotherapy for locally recurrent disease: When and how?**

G. De Meerleer, Ghent (BE)

09:30 - 09:45

**Discussion**

09:45 - 10:00

**Metastatic prostate cancer**

09:45 - 10:00

**Oligo vs polymetastatic prostate cancer: Distinct tumor entities?**

A.S. Bjartell, Malmö (SE)

10:00 - 10:15

**When to use chemotherapy in hormone sensitive prostate cancer**

M. Mason, Cardiff (GB)

10:15 - 10:30

**Combined or sequential systemic treatment for castration resistant disease?**

C. Sweeney, Boston (US)

10:30 - 10:45

**Discussion**
